These statements are not guarantees of future performance and involve risks, uncertainties and assumptions that are difficult to predict. We undertake no obligation to publicly update or revise any forward-looking statements. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of their dates. - changes in the performance of financial markets, including emerging markets, including:
  - the frequency and severity of defaults by issuers in our fixed income investment portfolios; and
  - the effects of corporate bankruptcies and/or accounting restatements on the financial markets and the resulting decline in value of equity and debt securities we hold;
- the frequency and severity of insured loss events;
- changes affecting mortality, morbidity and other factors that may affect the profitability of our insurance products;
- changes affecting interest rate levels and continuing low interest rate levels and rapidly changing interest rate levels;
- changes affecting currency exchange rates, including the EUR/USD and EUR/GBP exchange rates;
- increasing levels of competition in the United States, the Netherlands, the United Kingdom and emerging markets;
- changes in laws and regulations, particularly those affecting our operations, the products we sell and the attractiveness of certain products to our consumers;
- regulatory changes relating to the insurance industry in the jurisdictions in which we operate;
- acts of God, acts of terrorism and acts of war;
- changes in the policies of central banks and/or foreign governments;
- litigation or regulatory action that could require us to pay significant damages or change the way we do business;
- customer responsiveness to both new products and distribution channels;
- competitive, legal, regulatory, or tax changes that affect the distribution cost of or demand for our products;
- our failure to achieve anticipated levels of earnings or operational efficiencies as well as other cost saving initiatives; and
